Summary

As a Full Stack Developer and Columbia University Computer Engineering Bootcamp graduate, I bring extensive experience in React.js/Next.js, Vue/Nuxt, JavaScript, Adobe Experience Manager (AEM), and a variety of modern technologies, including AWS, MySQL, WordPress, Node.js, Bootstrap, HTML5, Sass, Tailwind, and MongoDB. My proficiency spans both front-end and back-end development, with a proven track record of leading R&D projects and driving innovation at ConcentricLife and Accenture Song. I've developed email campaigns, banner ads, and full-scale web solutions, mentored junior developers, and coordinated cross-functional teams. I am adept at exporting assets from Figma, Photoshop, and Sketch for seamless integration into projects. My commitment to empowering teams and driving client success makes me a valuable asset to any web development effort.

Skills

- Front-end web development
- Adobe Experience Manager (AEM)
- Augmented Reality
- AWS
- Banner Advertisement Development
- Bootstrap
- Client Acquisition
- Code Quality
- Communication
- Drupal
- Email Development
- Expo
- Express
- Figma
- Front End Web Development
- GitHub
- Gulp.js
- HTML5
- Innovation
- IT support
- JavaScript
- JQuery
- Leadership
- Mentoring
- MERN Stack
- MongoDB
- MySQL
- Node.js
- Photoshop
- Project Management
- Pug
- R&D
- React.js/Next.js
- React Native
- Sass
- Javascript
- Oral and written communications
- Software testing
- Website analytics tools
- Application debugging
- Adobe Creative Suite Applications
- Software Best Practices
- Content Marketing
- Data generation tools
- Website optimization
- Technical Analysis
- Version control systems
- Search Engine Optimization
- Mobile App Development
- Containerization Technologies
- Content Management Systems
- Object-Oriented Programming
- Software Debugging
- Client Communication
- Continuous integration
- Databases
- PHP
- Programming Languages
- Programming
- Marketing
- Amazon Web Services
- Web Security
- Troubleshooting
- Organization
- Technical Writing
- Conflict Mediation
- CMS platforms
- Social Media Management
- Wireframes
- Social Media

Experience

Accenture Song/ConcentricLife | New York, NY
Senior Developer
01/2020 - Current

In this role, I collaborated with developers and designers to build websites, emails, and digital banners, ensuring high-quality results aligned with project goals. As Project Lead, I managed team members, coordinated with cross-functional departments, and facilitated communication through Microsoft Teams to meet deadlines. Additionally, I spearheaded research and development efforts to create innovative new products and expand the team's capabilities.

Recent Projects

1. **Client A Website**
   - **Role**: Lead Senior Developer
   - **Technologies**: WordPress, WP Engine's Atlas, Next.js, React, HTML, CSS, JavaScript, Tailwind
   - **Description**: Spearheaded the architecture and development of a dynamic, modular company website using Next.js and React. Integrated with WordPress as a headless CMS via WP Engine's Atlas for optimized content management. Led a team of developers and implemented reusable React components for a streamlined development process.
   - **Outcome**: Delivered a responsive, SEO-optimized, and easily maintainable website, enhancing the company's digital presence.

2. **Client B Website**
   - **Role**: Lead Senior Developer
   - **Technologies**: WordPress, PHP, JavaScript, CSS
   - **Description**: Directed the creation of a custom WordPress theme using PHP templates. Oversaw the development of interactive features with JavaScript and ensured cross-browser compatibility and responsive design.
   - **Outcome**: Successfully launched a fully customized, user-friendly website, supporting the product's online marketing strategy.

3. **Client C Website**
   - **Role**: Lead Senior Developer
   - **Technologies**: Nuxt 3, Vue.js, HTML, CSS, AWS Cloudfront, S3, Lambda, API Gateway
   - **Description**: Led the development of a responsive and dynamic frontend interface using Nuxt 3. Integrated AWS services (Cloudfront, S3, Lambda, API Gateway) to optimize content delivery and backend processing.
   - **Outcome**: Enhanced user engagement with a seamless, responsive interface, leveraging serverless architecture for improved performance and scalability.

4. **Client D Website**
   - **Role**: Lead Senior Developer
   - **Technologies**: Adobe Experience Manager (AEM), JavaScript, CSS
   - **Description**: Oversaw the development and maintenance of frontend components using Adobe Experience Manager (AEM). Ensured consistent design implementation and responsive behavior across devices.
   - **Outcome**: Improved website load times and user experience, supporting the product's digital campaign.

5. **Client E Website**
   - **Role**: Senior Developer
   - **Technologies**: AEM, JavaScript, CSS
   - **Description**: Led the development of the marketing site using AEM, focusing on pixel-perfect implementation of

Additional Projects

6. **Banner and Email Development**
   ◦ **Role**: Lead Senior Developer
   ◦ **Technologies**: GSAP, JavaScript, HTML, PUG
   ◦ **Description**: Created dynamic banners using GSAP for animations and developed responsive email templates with HTML and PUG, ensuring compatibility across major email clients.
   ◦ **Outcome**: Delivered engaging banners and high-conversion email campaigns, boosting client marketing efforts and user engagement.
